

# Quilty Games

**Rotary Master:** Who can cut the most 2½" strips accurately?  
Each person or team will cut 2½" strips from yardage. After five minutes, count and measure the strips!

**Block Master:** Who can create the most quilt blocks?  
Using strips cut from the previous game, or from a precut jelly roll, each person or team will sew together the strips into Jack and Jill blocks (pattern provided). After 20 minutes, count the blocks!

**Quilt Master:** Who can sew together their quilt the fastest?  
Using the Jack and Jill blocks from the previous game, each person or team will sew together 8 blocks across and 10 blocks down. First person done is the winner!

YOU CAN USE THESE  
QUILT TOPS TO CREATE  
QUILTS FOR CHARITY!

MISSOURI STAR  
— QUILT CO. —

# Jack & Jill

## 1 sew and cut

Sew a white 2½" strip to a print 2½" strip. **1A**

Cut the sewn strips into 4½" increments. Each strip will yield (9) 4½" squares. You need 8 squares for the blocks. Set the left over square aside for another project. **1B**

Cut the squares from corner to corner once on the diagonal. **1C**

Note: All must be cut in the same direction. **1C**

Each strip set will yield enough triangles to make four blocks. Two will have the reverse coloration of the others.

## 2 make blocks

Select 4 triangles and sew them together as shown. Notice the white pieces form an X. Make 40. **2A**

Select 4 triangles and sew them together as shown. Notice the print pieces make up the X. Make 40. **2B**

Block size: 5" finished

## 3 arrange in rows

Arrange the blocks into rows. Alternate the blocks that have a white X in the center with a block that has a print X in the center. Make 10 rows with each row having 8 blocks.

Sew the rows together once you are happy with the placement of the blocks.

## 4 inner border

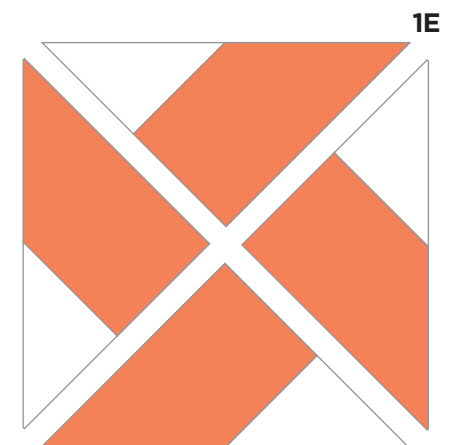

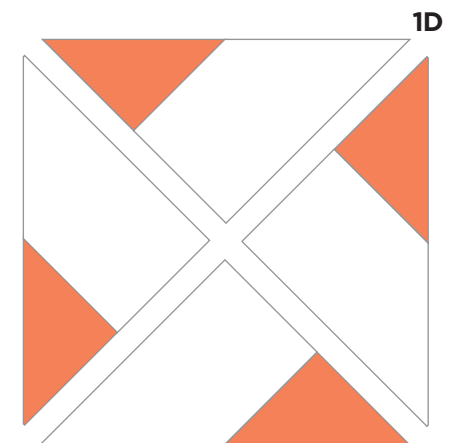

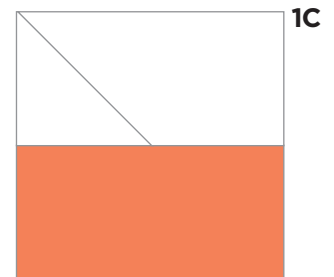

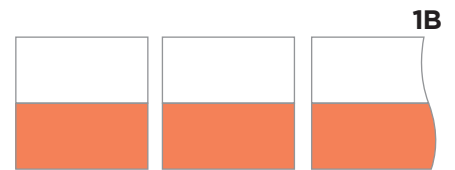

Cut (7) 2½" strips across the width of the fabric. Sew the strips together end-to-end to make one long strip. Trim the borders from this strip.

Refer to Borders (pg. 6) in the Construction Basics to measure and cut the inner borders. The strips are approximately 70½" for the sides and approximately 64½" for the top and bottom.

## 5 outer border

Cut (8) 5" strips across the width of the fabric. Sew the strips together end-to-end to make one long strip. Trim the borders from this strip.

Refer to Borders (pg. 6) in the Construction Basics to measure and cut the inner borders. The strips are approximately 74½" for the sides and approximately 73½" for the top and bottom.

# Quilty Games

**Thread Master:** Who can thread the most needles?  
Each person or team will thread needles onto one piece of thread.  
After one minute, count the needles.

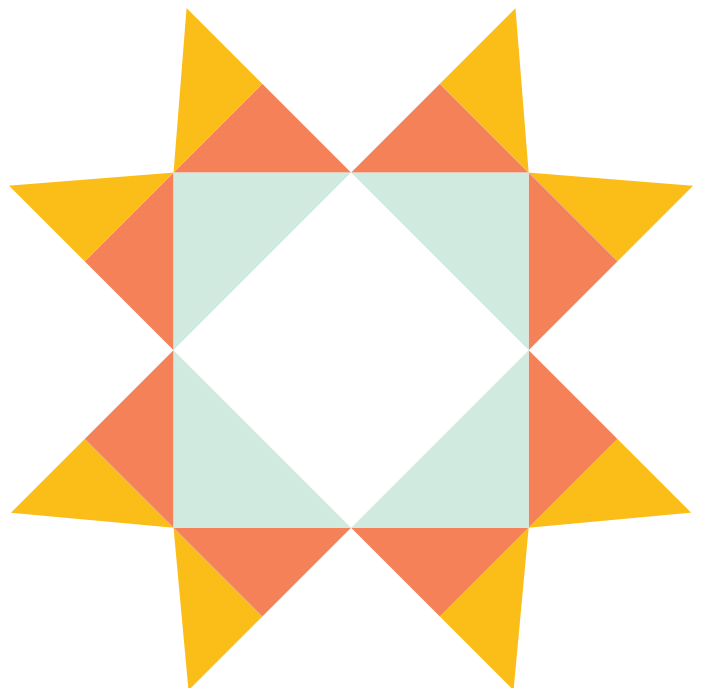

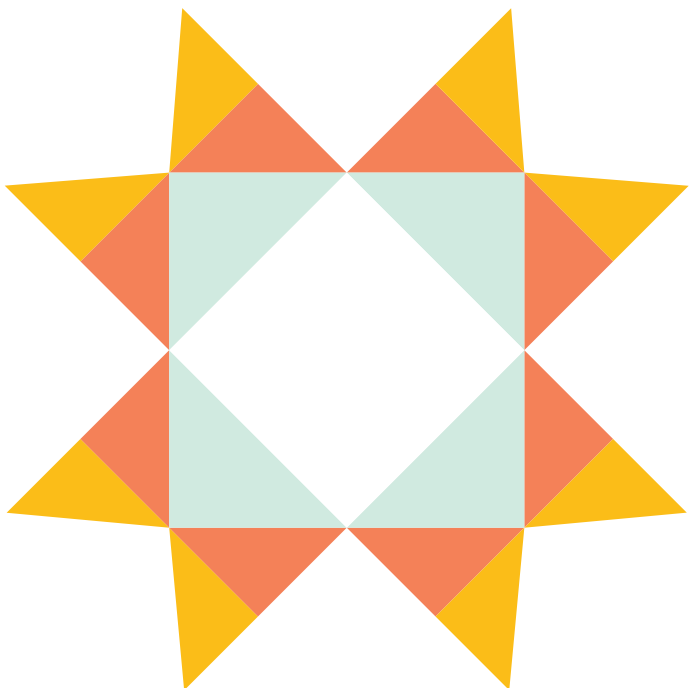

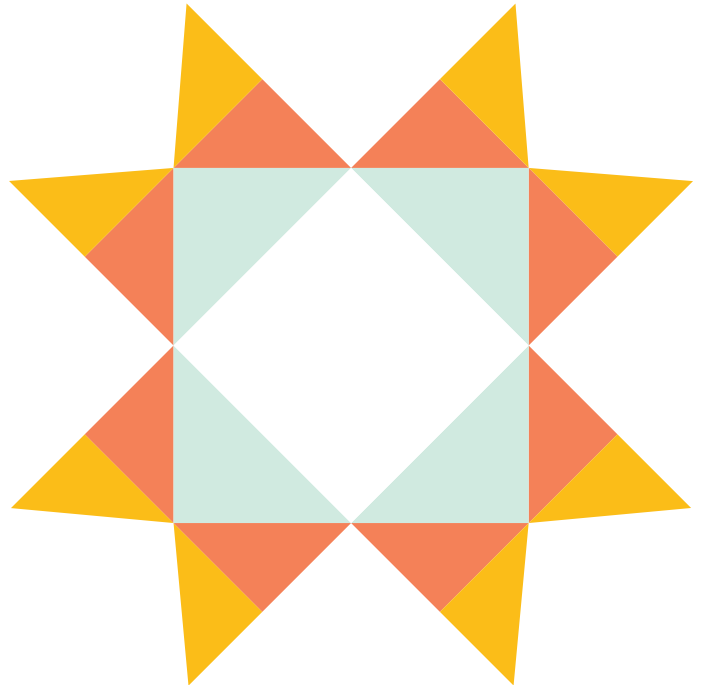

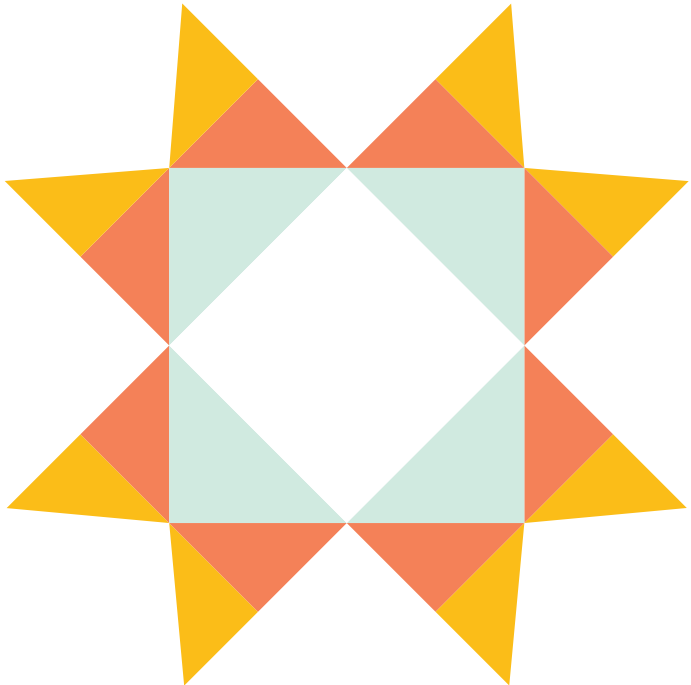

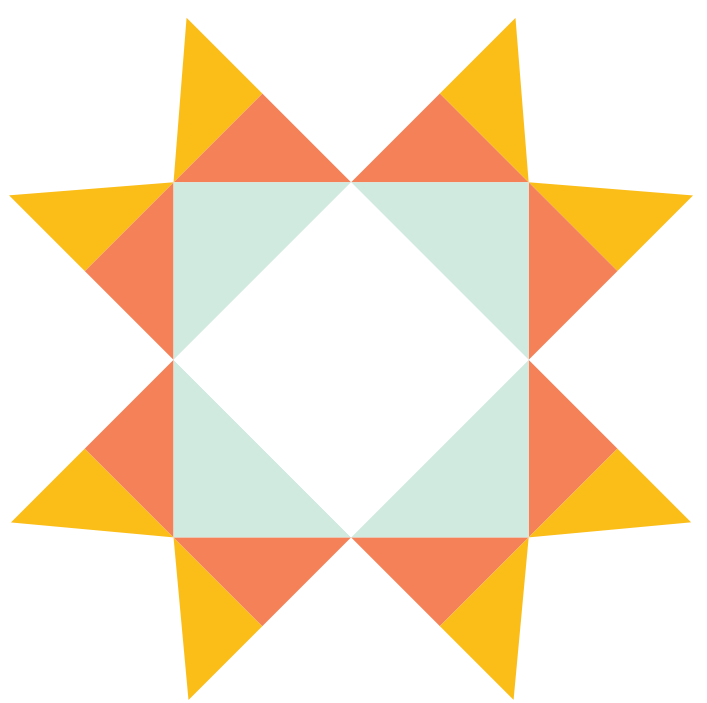

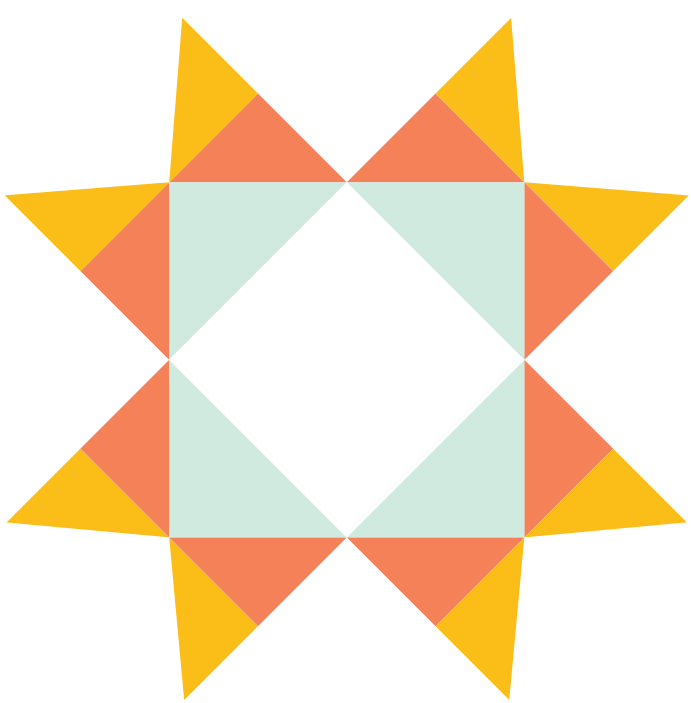

**2½" Strip Poker:** Play poker, betting with 2½" strips of fabric!

**Fat Quarter Frenzy:** Each person brings a fat quarter to the party. Everyone then enters their names in a drawing to win the jackpot! Choose a theme like Christmas, floral, dots, etc.

**Mini Quilt Exchange:** Before the party, have everyone make a mini quilt to bring in to exchange. Assign each quilt a number and draw numbers to see who gets which quilt! Or can you wrap up the quilts "yankee swap" style and let everyone take a turn picking out one present to unwrap.

**Pin the Star on the Quilt:** This game is just like Pin the Tail on the Donkey! Hang a quilt on the wall, print and cut out the Missouri Stars on the following page, and have each person write their name on a star. Then blindfold one person at a time and have them try to pin their star on the designated point on the quilt. The closest person wins!
